WHO WE ARE

An international trade partner built on reliable sourcing.

Before expanding into international trade, M/W Global Services Limited was established with a simple goal: to build reliable sourcing networks and connect clients with quality products.

We are committed to professionalism, transparency, and delivering products that meet our customers' requirements through strong partnerships and careful supplier selection.

Today M/W Global works across four connected lines — agricultural export, solid minerals, general goods import, and freight and clearing. Clients use one of them or all four. What stays constant is that a single team is accountable from the first enquiry through to delivery.

SERVICE LINES	COMMODITY LINES	DESTINATION MARKETS	WORLD REGIONS

OUR MISSION

To connect producers to world markets through trade that is transparent, reliable and consistently delivered.

WHAT CLIENTS TELL US THEY VALUE

01

One accountable partner

Sourcing, shipping and clearing sit under one roof. When something moves, you have one number to call — not four vendors pointing at each other.

02

The specification is agreed in writing

We fix grade, packaging and tolerances in the contract before anything ships, so both sides know exactly what is being bought and sold.

03

Direct supplier relationships

We buy through networks we have built and maintain rather than through layers of middlemen, which keeps pricing competitive and supply steadier.

04

Documentation handled properly

Most trade disputes are paperwork disputes. We prepare complete, consistent document sets so consignments are not held up at destination.

WHAT WE DO

Four service lines, one accountable partner.

Most trade problems happen in the handoffs — between the supplier and the inspector, the freight agent and the customs broker. We run all four lines ourselves, so the handoffs are ours to manage.

SERVICE 01 — 01

Agricultural Commodity Export

Sourcing, consolidation and export of raw and semi-processed agricultural produce.

- Sourcing through established supplier networks
- Consolidation to full container volumes
- Cleaning, sorting and export-standard bagging
- Pre-shipment inspection arranged where required
- Export documentation prepared and submitted

SERVICE 02 — 02

Solid Minerals Trading

Sourcing and export of industrial minerals and ores to buyer specification.

- Sourcing through vetted mining and processing partners
- Sorting and grading to the agreed specification
- Independent assay arranged on request
- Transport arranged from site to port
- Export documentation prepared and submitted

SERVICE 03 — 03

General Goods Import

Procurement and delivery of machinery, industrial equipment, building materials and consumer goods.

- Supplier identification, vetting and price negotiation
- Inspection arranged at origin before shipment
- Import documentation and clearance handled
- Consolidated shipping for smaller orders
- Delivery to your warehouse or site

SERVICE 04 — 04

Freight Forwarding & Clearing

Ocean and air freight, customs clearance, warehousing and inland haulage.

- Ocean and air freight booking
- Customs clearance and entry filing
- Warehousing and stock handling
- Inland haulage and delivery
- Cargo insurance arranged on request

Engage one line or the full chain. Either way you deal with one team, one contract and one set of documents. Where a requirement is outside what we can realistically deliver, we say so upfront rather than agreeing to it and arguing later.

WHAT WE TRADE

Product index

These are the lines we handle most often. Grade, packaging and volume are agreed with the buyer and fixed in the sales contract.

NO.	PRODUCT	KEY PARAMETER	MARKETS / SCOPE
CATEGORY 01 — AGRICULTURAL & NATURAL PRODUCTS			
01	**Sesame Seeds**	Purity ≥ 99% · Oil ≥ 48%	Asia · Middle East · Europe

19	**Solar & Renewable Systems**	To specification	Panels, inverters, batteries
20	**Electrical Fittings & Cables**	To specification	Cable & distribution
21	**Steel & Metal Products**	To specification	Sections, sheet, rebar, pipe
22	**Chemicals & Fertilisers**	To specification	Industrial & agri inputs
23	**Medical & Laboratory Equipment**	To specification	Clinical & diagnostic

Our sourcing network reaches beyond this catalogue. If a product is not listed, ask and we will tell you whether we can supply it.

CATEGORY 01 — AGRICULTURAL & NATURAL PRODUCTS

Sesame Seeds

01 / 10

Whitish · Machine-cleaned · Oil and food grade

Machine-cleaned whitish sesame from Nigeria's northern belt, sorted to export purity and moisture-tested before bagging. Supplied to oil-grade or food-grade specification depending on what the buyer is running it through.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Purity	**≥ 99%**
Moisture	**≤ 8%**
Oil Content	**≥ 48%**
Foreign Matter	**≤ 1%**
Packaging	**25 kg / 50 kg bags**
Min. Order	**1 × 20ft FCL**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Oil extraction · Tahini & paste · Bakery & confectionery · Food processing

KEY EXPORT MARKETS

Asia · Middle East · Europe

Raw Cashew Nuts

02 / 10

Graded on outturn · Sampled before loading

Raw in-shell cashew nuts graded on kernel outturn rather than appearance alone. Lots are sampled for KOR and moisture before loading, and the nut count is confirmed in writing on the sales contract.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Nut Count (KOR)	**46–52 lbs / 80 kg**
Moisture	**≤ 10%**
Defective Nuts	**≤ 8%**
Foreign Matter	**≤ 1%**
Packaging	**80 kg jute bags**
Min. Order	**1 × 20ft FCL**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Kernel processing · Snacks & confectionery · Roasting & packing

KEY EXPORT MARKETS

Asia · Europe

Dried Hibiscus Flower

03 / 10

Zobo · Sun-dried · Hand-sorted · Deep crimson

Hibiscus sabdariffa calyces from northern Nigeria, sun-dried and hand-sorted to hold colour and take out stalk and leaf. Bought for tea blending, beverage extract and natural colourant work.

INDICATIVE SPECIFICATION

Botanical Name	**Hibiscus sabdariffa**
Origin	**Northern Nigeria**
Moisture	**≤ 12%**
Colour	**Deep crimson / burgundy**
Processing	**Sun-dried, hand-sorted**
Packaging	**25 kg / 50 kg PP bags**
Min. Order	**1 MT**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Herbal teas · Juices & beverages · Natural colourant · Nutraceuticals

KEY EXPORT MARKETS

Europe · North America · Asia

Dried Chilli Pepper

04 / 10

Whole · Crushed · Ground · Multiple heat grades

Sun-dried Nigerian chilli, cleaned and supplied whole, crushed or ground. Heat sits in the 40,000–100,000 SHU band depending on grade, and the grade is fixed against the contract before anything ships.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Moisture	**≤ 12%**
Colour	**Bright red**
Form	**Whole / Crushed / Ground**
Heat Level	**40,000–100,000 SHU**
Packaging	**25 kg / 50 kg PP bags**
Min. Order	**1 MT**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Spice & seasoning · Food processing · Sauces & condiments · Oleoresin extraction

KEY EXPORT MARKETS

Europe · Asia · North America

Soybeans

05 / 10

Non-GMO · High protein · Export-ready

Non-GMO Nigerian soybeans, cleaned and moisture-tested so consignments meet phytosanitary requirements at destination. Suitable for crushing, feed milling and direct food processing.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Variety	**Non-GMO**
Protein Content	**≥ 36%**
Moisture	**≤ 13%**
Oil Content	**≥ 18%**
Packaging	**25 kg / 50 kg bags / bulk**
Min. Order	**1 × 20ft FCL**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Oil crushing · Animal feed · Tofu & soy foods · Food processing

KEY EXPORT MARKETS

Asia · Europe · Middle East

Ginger

06 / 10

Dried split & powder · High gingerol · Strongly aromatic

Nigerian ginger is bought on pungency, and it holds a strong international reputation for it. Supplied as dried split or milled powder, cleaned to export standard for food, beverage and extraction buyers.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Form	**Dried Split / Powder**
Moisture	**≤ 10%**
Gingerol	**High (variety-dependent)**
Extraneous Matter	**≤ 1%**
Packaging	**25 kg / 50 kg jute / PP bags**
Min. Order	**1 MT**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Food & beverage · Spice blending · Pharmaceuticals · Cosmetics

KEY EXPORT MARKETS

Europe · Asia · North America

Gum Arabic

07 / 10

Acacia gum · Natural emulsifier · Highly soluble

Acacia gum from Nigeria's savannah belt, supplied as cleaned kibble or spray-dried powder. Used as a stabiliser and emulsifier where solubility and a neutral taste profile matter.

INDICATIVE SPECIFICATION

Botanical Source	**Acacia senegal / Acacia seyal**
Origin	**Nigeria**
Form	**Kibble / Spray-dried powder**
Moisture	**≤ 15%**
Ash Content	**≤ 4%**
Solubility	**Highly soluble in water**
Packaging	**25 kg / 50 kg bags**
Min. Order	**1 MT**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Food & beverage · Pharmaceuticals · Cosmetics · Printing & ink

KEY EXPORT MARKETS

Europe · North America · Asia

Frankincense (Luban)

08 / 10

Aromatic resin · Hand-collected · Graded

Aromatic resin, hand-collected and graded for purity and aroma. Sorted to take out bark and debris before packing, and available in more than one grade to suit incense, perfumery and extraction buyers.

INDICATIVE SPECIFICATION

Origin	**Nigeria / West Africa**
Form	**Raw tears / Granules**
Colour	**Pale yellow to amber**
Purity	**High — minimal bark / debris**
Packaging	**10 kg / 25 kg bags**
Min. Order	**500 kg**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Incense & perfumery · Cosmetics · Traditional wellness · Pharmaceuticals

KEY EXPORT MARKETS

Middle East · Europe · Asia

Hardwood Charcoal

09 / 10

Low ash · Long burn · BBQ and industrial

Kiln-produced hardwood charcoal with low ash and a long, steady burn. Packed to the bag size the buyer actually sells in, from 5 kg retail through to 25 kg bulk.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Moisture	**≤ 5%**
Ash Content	**≤ 3%**
Fixed Carbon	**≥ 75%**
Calorific Value	**7,000–8,000 kcal/kg**
Packaging	**5 / 10 / 25 kg bags**
Min. Order	**1 × 20ft FCL**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

BBQ & grilling · Restaurants & hotels · Industrial fuel

KEY EXPORT MARKETS

Europe · Middle East · North America

Mangrove Charcoal

10 / 10

High fixed carbon · Extreme heat · Dense structure

Dense mangrove charcoal carrying higher fixed carbon and a hotter burn than hardwood. Moves mainly into the shisha trade, metallurgical use and water filtration.

INDICATIVE SPECIFICATION

Origin	**Nigeria**
Moisture	**≤ 5%**
Ash Content	**≤ 3%**
Fixed Carbon	**≥ 78%**
Calorific Value	**7,500–8,500 kcal/kg**
Packaging	**5 / 10 / 25 kg bags**
Min. Order	**1 × 20ft FCL**

CONFIRMED AT TIME OF ORDER

APPLICATIONS

Shisha / hookah · Metallurgy · Water filtration · Industrial

KEY EXPORT MARKETS

Middle East · Asia · Europe

CATEGORY 02

Solid Minerals

Supplied to the grade agreed at contract, with independent testing arranged on request. We work with vetted mining and processing partners, consolidate to shipment volume, and move cargo from site to port.

Lead Ore (Galena)

PbS concentrate

Lead sulphide concentrate consolidated from vetted Nigerian sources and sorted to the Pb percentage agreed at contract. Independent assay is arranged before shipment wherever the buyer wants the grade verified by a third party.

Tin Ore (Cassiterite)

SnO_2 concentrate

Tin oxide concentrate out of Nigeria's tin belt, sold on Sn content. Lots are consolidated to container volume, sampled and assayed against the specification written into the contract.

Columbite & Tantalite

Nb_2O_5 / Ta_2O_5 concentrate

Niobium and tantalum bearing concentrate sold on combined assay. Handled with the provenance record and documentation buyers in this category are required to hold.

BASIS OF SALE	VERIFICATION	PACKAGING	VOLUME
Assay grade agreed at contract	**Independent assay on request**	**Bulk bags or drums to requirement**	**Confirmed per enquiry**

Sampling and assay. Lots are sampled after consolidation and before loading. Where a buyer requires third-party verification, we arrange an independent assay and release the certificate with the shipping document set.

CATEGORY 03

Imported Goods

We act as the buying arm for clients who need goods brought in without running an international procurement desk themselves. We identify and vet suppliers, negotiate terms, and handle the shipment through to delivery — one invoice, one point of contact.

01
Industrial Machinery
Production lines, processing plant and workshop equipment.

02
Agricultural Equipment
Tractors, implements, processing and post-harvest machinery.

03
Building Materials
Structural, finishing and site consumables at project volume.

04
Automobiles & Spare Parts
Vehicles, commercial units and OEM or aftermarket parts.

05
Generators & Power Equipment
Diesel and gas gensets, controls and switchgear.

06
Solar & Renewable Systems
Panels, inverters, batteries and balance-of-system components.

07
Electrical Fittings & Cables
Cable, conduit, distribution boards and accessories.

08
Steel & Metal Products
Sections, sheet, rebar, pipe and fabricated items.

09
Chemicals & Fertilisers
Industrial and agricultural inputs to specification.

10
Medical & Laboratory Equipment
Clinical, diagnostic and laboratory apparatus.

Not listed here? Our sourcing network reaches well beyond this catalogue. Send the specification, the quantity and the delivery point, and we will tell you whether we can supply it and on what timeline.

PROCUREMENT

Supplier identification, vetting and price negotiation, with inspection arranged at origin before shipment.

SHIPPING

Consolidated shipping for smaller orders, full container loads where volume justifies it.

DELIVERY

Import documentation and clearance handled, then inland haulage to your warehouse or site.

MARKETS WE SERVE

Where our cargo lands

Twenty-six destination markets across six regions. Delivery terms are agreed per contract — EXW, FOB, CFR, CIF or DAP — and we quote against the named port or place of destination.

Asia

5 MARKETS

- China
- India
- Vietnam
- Indonesia
- Malaysia

Europe

7 MARKETS

LOADING PORTS

Lagos (Apapa / Tin Can Island) and Onne, with inland consolidation arranged from source.

INCOTERMS

EXW · FOB · CFR · CIF · DAP — fixed in the sales contract alongside the specification.

PAYMENT

Letter of credit, telegraphic transfer or terms agreed in writing before the contract is issued.

HOW WE WORK

From first enquiry to documents in hand

01

Enquiry

You tell us the commodity, grade, volume and destination. We come back with an indicative offer.

02

Contract & Terms

We agree the specification, Incoterms and payment arrangement, then issue a sales contract and proforma invoice.

03

Sourcing & Checks

We source and consolidate the order, and check it against the agreed specification before loading.

04

Shipment & Documents

We book space, load and ship, and hand over the document set the buyer needs to take delivery.

Documentation we prepare

Most trade disputes are paperwork disputes. The document set is assembled to match the contract and the destination's import requirements, and issued complete.

- Commercial invoice and packing list
- Certificate of origin
- Quality / weight certificate
- Fumigation certificate where required
- Bill of lading / air waybill
- Phytosanitary certificate (agricultural lots)
- Independent inspection or assay report
- Insurance certificate where arranged

Document requirements vary by commodity and destination. We confirm the exact set at contract stage so nothing is discovered late.
